'HEAT'S ON – WATER'S OFF' PROJECT

SATURDAY, OCTOBER 6, 2018

Time: 8:00 a.m. - 1:00 p.m.

The 'Heat's-On Water's Off' project provides a safety check to the heating and plumbing systems in homes of senior citizen's. This free routine maintenance check is provided to senior homeowners in an effort to ensure that the heating and plumbing equipment is operating efficiently. In addition, the Prince George's County Fire Department will make a home visit to check and replace smoke detectors.

This community project involves the joint voluntary efforts of the Prince George's County Department of Family Services, Area Agency on Aging and the Prince George's County Fire Department; as well as the local Steamfitters Union, Plumbers Union, and local Service Contractors Bureau members.
